

# Policy requirements for a sustainable and robust sector

Ruth Harvey

Manager, Strategic and Operational Policy

# What can/should government do?

Nothing

Everything

Industry and  
farmers sort  
it out for  
themselves

Government is  
an active  
investor and  
participant in  
farm forestry

# What are the desired outcomes?

- Stakeholders:
  - Various
- Government:
  - Value for money
  - Little spare capital

# What evidence do we have?

1. not much\*\*
2. it conflicts

\*\*prior to the commencement of projects such as this one

# Useful guiding principles for policy

1. Innovative
2. Flexible

# Recent experience in WA

- Clarify areas of key policy alignment with government objectives
- *Muddling through*: started somewhere
  - Now monitor and revise to inform strategy
