Putting a Value on Natural Capital

Simon Cook – Sustainability Manager

Forestry Australia Conference

15 October 2023

Acknowledgement of Country

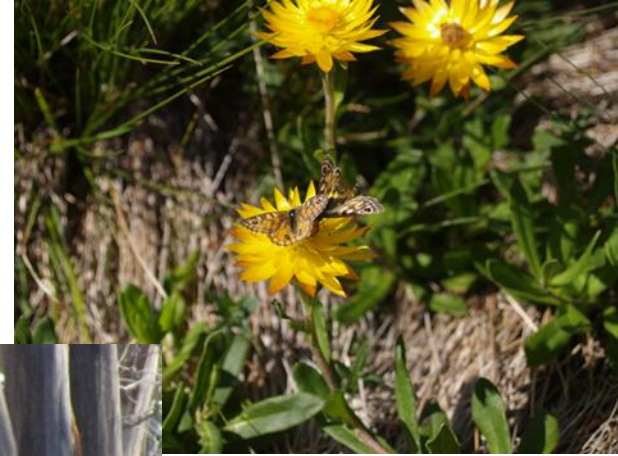

Sustainably managed forests are a Nature-Based Solution to Climate Change

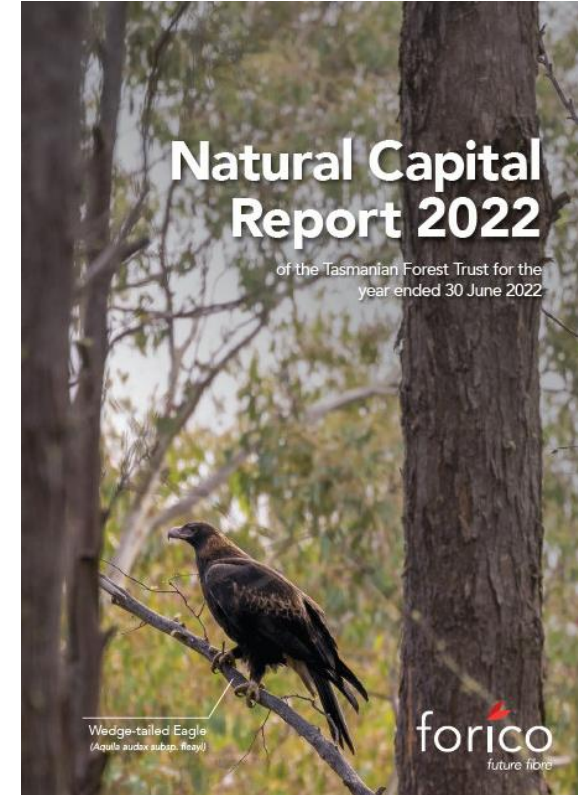

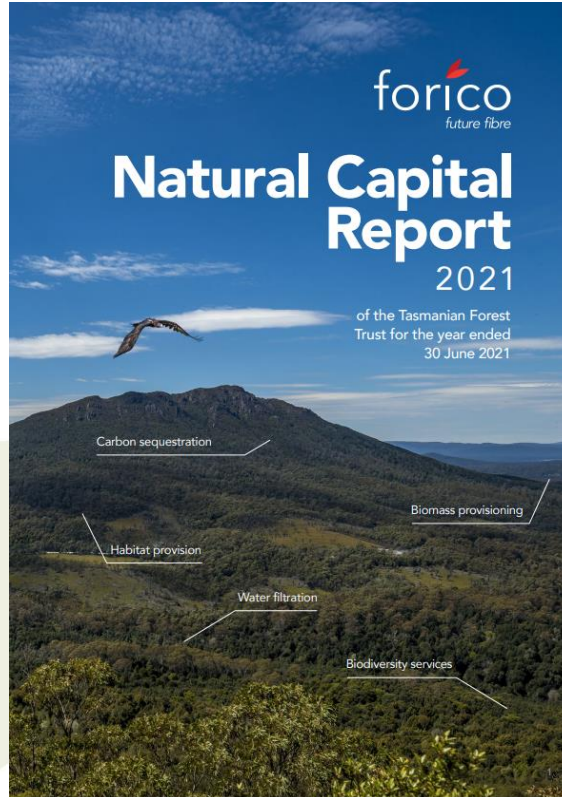

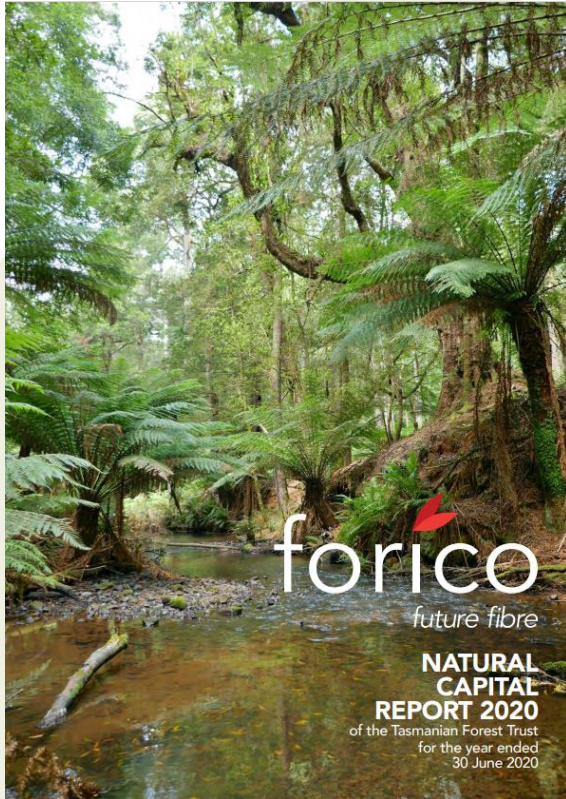

- *Eucalyptus nitens*, *Eucalyptus globulus*, *Pinus radiata*

Natural Forest – Biodiversity and Conservation **forico** future fibre

Natural Capital Reports

Why Natural Capital for Forico?

- Alignment
 - With our Purpose and Sustainable Forest Management credentials.
 - Communication
 - Story telling.
 - To transparently communicate benefits **to Business** and benefits **to Society**.
 - What are our **Impacts** and **Dependencies** on nature?
 - Expand the narrative beyond wood fibre.
 - Reporting
 - Moving into a world of Integrated Reporting, TCFD, TNFD, SDG's, ESG.
 - Bring ecosystem services into the Balance Sheet and Profit and Loss Account.
 - Responsibilities
 - Fiduciary responsibilities of a Board and Investor demands.
- 
- A small red leaf icon, identical to the one in the Forico logo, is located in the bottom right corner of the slide.

Integrity Is The Key

Implement a process that is **Independent, Accountable, Reliable, Credible, Auditable**:

1. Responsible Wood / PEFC Certification Scheme.

Responsible
Wood
RW/1-31-35

PEFC™
PEFC/21-31-276

2. FSC Certification Scheme and Ecosystem Services.

FSC
www.fsc.org
FSC® C104643
FSC® C125199

3. Accounting for Nature Certification.

AU00054

4. Limited Assurance.
